

PRO CLEANER #1

Product Details

Pro Cleaner #1 is a cleaner specifically designed for cleaning before and after urethane floor coatings are applied. In addition, it can be used for heavy soiled areas and light daily cleaning without leaving chemical residue.

- ✓ Surfactant Free
- ✓ Safe to use on acrylic or urethane floor finishes and coatings
- ✓ Fragrance and dye free
- ✓ Compatible with all Pro Service strippers and coatings

Daily Cleaning Procedure

Mix Pro Cleaner #1 according to label instructions. With desired equipment, mop & bucket or auto scrubber, clean the area. It is important to control the sand and other contaminants, this will provide a more clear and vibrant coating.

Recommended Cleaner Uses

- ✓ Daily Cleaning – We recommend Pro Cleaner #1 for best results.
- ✓ Pre-Application: Use prior to coating rubber surfaces with Flex-Coat
- ✓ Post strip-out clean up - dilute at 1:4 and follow up with a water rinse prior to application. This will help ensure proper adhesion and product retention.

Recommended Pads

- ✓ White Microfiber Bonnet Floor Pad (non-looped type)
- ✓ Low abrasive (white) standard floor pad.

Recommended Supplies

- ✓ Autoscrubber
- ✓ Air movers
- ✓ Flat head mop and pads
- ✓ Caution tape and signs
